FACTS IN NATURE.

Not Only De We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, billousness, or torpid liver, coated tongue with bitter taste the morning and poor appetite, it becomes necessary to turn to some tonic or atrengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health giving agents are to be found in forest plants and roots.

Nature's most valuable health giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering allments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or billousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

ish on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

Itched Constantly—Scratched Until Blood Flowed—Suffered 10 Years —Doctors and Medicines Were Fruitless-Tries Cuticura and Is Completely Cured

BY THREE BOXES OF CUTICURA OINTMENT

"When I was about nine years old small sores appeared on each of my lower limbs. I scratched them with a brass pin and shortly afterwards both of those limbs becams so sore that I could scarcely walk. When I had been suffering for about a month the sores began to heal, but small scally eruptions appeared where the sores had been. From that time onward I was troubled by such severe itching that, until I became again and the itching would accompany them. After I suffered about ten years I made a renewed effort to effect a cure. The eruptions by this time had appeared on every part of my body except my face and hands. The best doctor in my native county advised me to use arsenic in small doses and a salve. I then used to bathe the sores in a mixture which gave almost intolerable pain. In addition I used other remedies, such as iodine, sulphur, sinc salve.——s Salve,—

Ointment, and in fact I was continually giving some remedy a fair trial, never using less than once two boxes or bottles. All this was fruitless. Finally my hair began to fall out and I was rapidly becoming baid. I used—s but it did no good. A faw membles after, having used almost everything else, I thought I would try Cutabura Ointment, having previously used Cucleura Soap and being pleased with it. After using three boxes I was completely cured, and my hair was restored, after fourteen years of suffering and an expenditure of at least 350 to 260 in value endeavoring to find a cure. I shall be glad to write to any one who may be interested in my cure. B. Hiram Mantangly, Verat least 350 to 250 in value, endeavoring to find a cure. I shall be glad to write to any one who may be laterested in my cure. B. Hiram Mattingly, Vermillion, S. Dak., Aug. 18, 1906."

John F. Warren of Adair was in the city this morning on business.

Lee Kenreigh has returned from his holiday vacation at Mountain Grove

James B. Rutherford of Claremore was transacting business in Vinita this morning.

Isaac N. Boyce of Eldon, Mo., is in the city today, visiting his neice, Mrs. O. D. Neville.

Sam Zeno is in from Spavinaw, buy ing goods for his store, and attending to some business in Judge Farrar's

Miss Margaret Johnson entertained a few of her friends yesterday evening with five hundred, luncheon being served later. The guests were Miss Josephine Barker, Mr. Pat Mahoney and Mr. Roe Cromwell.

The civil term of court at Pryor Creek proved even shorter than expected, and adjournment was taken yesterday afternoon. There were but few cases brought before Judge Parker, and no jury trials.

Jim Ball of Centralm was brought in yesterday afternoon by Deputy Marshal Arthur Chamberlain. Ball was indicted last summer by the grand jury for introducing, but had not been located by the officers.

MAKING OF ARTIFICIAL IGE.

Five Million Tons Turned Out Yearly -\$50,000,000 in the Buriness.

Few American trades have grown is rapidly in recent years as artificial ce making. The conditions of ice supply and the number of factories requiring ice in enormous quantities seem to promise a further extension of the business. It is simited to no particular state, but has been most generally and most largely developed in the south

In 1870 there were four artificial ice making plants in the United States. In 1880 there were 35. In 1890 there were 200. In 1900 there were 800. There are now considerably more

than 1,000. The capital invested in them is nore than \$50,000,000, and the amount of ice they turn out in a year is in excess of 5,000,000 tons, of which 1,500,000 tons is manufactured in the

southern states. The original artificial ice plant established in the United States was in New Orleans in 1866, and the intention of its projectors was declared to be to supply artificial ice in the territory south of the ice line, which is south of the North Atlantic, New England, middle and northwestern states. By degrees ice plants have been established in the territory supplied with natural ice, brewerles, hotels, restaurants, packing houses and hospitals having refrigerating plants.

Frof. Eliot Was Obliging. President Eliot of Harvard is no believer in the Rooseveltian spelling reform. A young student was a candidate for the degree of doctor of philosophy. This man adopted spelling reform as his particular line of work, and as commencement day drew near he went to President Eliot with a request. "You know, Mr. President," he said, "that you are proposing to make me a Ph. D. Now, I have made a specialty of spelling reform, and I

always spell philosophy with an 'f.' I therefore called to ask you if you could not make my degree F. D. instead of Ph. D." "Certainly, my dear," replied the president of Harvard. "In fact, if you insist, we shall make it
